

Parallel Sessions and speakers

Wednesday 14 September 2011

10:00–18:00	Registration (Rootes Building)
12:30–13:45	Buffet lunch for free place recipients, invited speakers, SSM National & ECR Committees and local organising committee (Ramphal Building Room 2:41)
13:30–14:15	Welcome (Ramphal Lecture Theatre)
14:15–15:00	Cochrane lecture (Ramphal Lecture Theatre) Professor Peter Groenewegen: Strengthening primary care in weak primary health care systems
15:00–15:30	Refreshments and exhibition / poster viewing (Ramphal Building)

Parallel Session A	R0.21 Parenting	R0.12 Health services research and policy	R0.14 Pregnancy and postnatal health	R1.13 Social and environmental determinants	R1.15 Physical activity and travel
15:30–15:50	The development of two postnatal health instruments: one for mothers (M-PHI), one for fathers (F-PHI), to measure health during the first year of parenting CJ Morrell <i>et al</i> OP1	Policy formulation in the health system: a case study of the Expert Advisory Group for Diabetes S Mc Hugh <i>et al</i> OP5	#Why do women attend late for antenatal booking? A qualitative interview study exploring the perspectives of service users and stakeholders GL Jones <i>et al</i> OP9	Determinants of mental health and wellbeing in low income communities: a multilevel approach examining individual and neighbourhood characteristics G Phillips <i>et al</i> OP13	Active travel in children and its relationship to overall activity levels MA Roth <i>et al</i> OP17
15:55–16:15	Systematic review of parenting programs for preterm and low birth weight infants on enhancing parent-infant interaction by improving parental sensitivity A Underdown <i>et al</i> OP2	Assessing the evaluability of complex public health interventions: five questions for researchers, funders and policymakers D Ogilvie <i>et al</i> OP6	Trends in postpartum haemorrhage in Ireland: an eleven-year population-based cohort study JE Lutonski <i>et al</i> OP10	A good place for bringing up children? Mother's neighbourhood perceptions and children's behavioural development in the Millennium Cohort Study A Scheiwe <i>et al</i> OP14	Day length and weather effects on children's physical activity and participation in play, sports and active travel J Paskins <i>et al</i> OP18
16:20–16:40	Exposure to sexually explicit visual media and sexual debut at age 15 C Nixon <i>et al</i> OP3	"Surely there must be more evidence . . . !" Reviewing literature to support the development of evidence-based public health guidance by the National Institute for Health and Clinical Effectiveness N Payne <i>et al</i> OP7	Effectiveness of training in motivational interviewing in influencing smoking cessation in pregnant and post-partum women in lower socio-economic groups C Hayes <i>et al</i> OP11	Self-rated health and area deprivation: exploring a differential association among white British and ethnic minority people in England L Becares <i>et al</i> OP15	How and why do people commute by car? A mixed-methods investigation A Goodman <i>et al</i> OP19
16:45–17:05	Longitudinal associations between screen time and children's behavioural and emotional adjustment at age 7 A M Parkes <i>et al</i> OP4	Barriers to intersectoral working to improve health: a qualitative study DC Taylor-Robinson <i>et al</i> OP8	#The health of postnatal women's partners up to 18 months after their baby was born: a longitudinal survey alongside a randomised controlled trial CJ Morrell <i>et al</i> OP12	Associations between sedentary behaviour and cardiovascular, hemostatic and diabetic markers in mid-adult life (45 years) SM Pinto Pereira <i>et al</i> OP16	Is a change in mode of travel to school associated with a change in overall physical activity levels in children? Longitudinal results from the SPEEDY study L Smith <i>et al</i> OP20
17:15–18:15	Society for Social Medicine Annual General Meeting (Ramphal Lecture Theatre)				
19:00–20:30	Conference reception (Butterworth Hall, Warwick Arts Centre)				

Thursday 15 September 2011

Parallel Session B	R0.21 Cardiovascular disease and mortality	R0.12 Health services research and clinical issues	R0.14 Mental health and wellbeing	R1.13 Obesity and diet	R1.15 Innovative methods
09:00–09:20	#Modelling coronary heart disease mortality in Northern Ireland between 1987 and 2007 J Hughes <i>et al</i> OP21	Prevalence of chronic kidney disease in England: findings from the 2009 Health Survey for England P Roderick <i>et al</i> OP26	What factors are associated with a validated measure of mental wellbeing in the general population in Coventry? A stratified random cross sectional survey R Putz <i>et al</i> OP31	Adiposity and cardiometabolic risk markers among Indian children: comparison with Indian and white European children in the UK CM Nightingale <i>et al</i> OP36	Testing life course models to investigate the effect of socioeconomic position on crystallized cognitive function in older age, accounting for missing data R Landy <i>et al</i> OP41
09:25–09:45	Explaining recent coronary heart disease mortality trends in England by socioeconomic circumstances, 2000–2007 M Bajekal <i>et al</i> OP22	Diagnostic accuracy of clinical tests for subacromial impingement syndrome (SIS): a systematic review and meta-analysis M Alqunae <i>et al</i> OP27	Give my head peace: psychotropic drug uptake around the 'peace-lines' in Northern Ireland D O'Reilly <i>et al</i> OP32	Adiposity has differing associations with coronary heart disease incidence and mortality in the Scottish Health Survey Cohort: Cross sectional surveys with follow-up JW Hotchkiss <i>et al</i> OP37	Service users' experiences of a physical activity and lifestyle intervention for people with severe mental illness: a longitudinal qualitative study A Alba <i>et al</i> OP42

Parallel Session B	R0.21 Cardiovascular disease and mortality	R0.12 Health services research and clinical issues	R0.14 Mental health and wellbeing	R1.13 Obesity and diet	R1.15 Innovative methods
09:50–10:10	Potential cardiovascular mortality reductions in Ireland associated with specific food policy options C O’Keeffe <i>et al</i> OP23	Does the performance of mammography readers in the NHSBSP vary? And how much does this matter? S Taylor-Phillips <i>et al</i> OP28	The use of communication technologies for the engagement of young adults and adolescents in mental health care S Martin <i>et al</i> OP33	Short and medium term effects of a community-based intervention to address social inequalities in health S Visram <i>et al</i> OP38	What is research? Views of minority groups G Plumridge <i>et al</i> OP43
10:15–10:35	Trends and inequalities in cardiovascular disease mortality in Scotland, 1974–2009 CA Davies <i>et al</i> OP24	OEDIPUS: A cluster randomised trial of education for South Asians with asthma, and their primary and secondary care physicians, to reduce unscheduled care SJC Taylor <i>et al</i> OP29	Investigating the effects labour market position on minor psychiatric morbidity across the business cycle: longitudinal analysis of the British Household Panel Survey, 1991–2007 E Flint <i>et al</i> OP34	Psychological distress and Body Mass Index: comorbidity and direction of associations over the life-course MCG Geoffroy <i>et al</i> OP39	Clinical versus economic interpretations of RCT results - mixed messages? D McKell-Redwood <i>et al</i> OP44
10:40–11:00	#An investigation through microsimulation of the inequities in Coronary Heart Disease (CHD) mortality and morbidity in Wales WJ Watkins <i>et al</i> OP25	Pharmacist-led management of chronic pain in primary care: the PIPPC study R Holland <i>et al</i> OP30	Vitamin D to reduce depressive symptoms: a systematic review CMJ Day <i>et al</i> OP35	Associations between adolescent obesity and both individual and group-level social status HN Sweeting <i>et al</i> OP40	Timely and complete publication of economic evaluations alongside randomised controlled trials J Thorn <i>et al</i> OP45
11:00–11:40	Refreshments and exhibition / poster viewing (Ramphal Building)				
Parallel Session C	R0.21 Cardiovascular disease and inequalities	R0.12 Social determinants and mortality	R0.14 Gender	R1.13 Methods and measurement	R1.15 Infant and child health
11:40–12:00	Reducing socioeconomic inequality in coronary disease treatments: the NHS finally triumphs? NM Hawkins <i>et al</i> OP46	Socio-demographic diversity and unexplained variation in death rates between the most deprived areas in Britain H Tunstall <i>et al</i> OP50	How robust is the evidence of an emerging or increasing female excess in physical morbidity rates between childhood and adolescence? Results of a systematic literature review K Hunt <i>et al</i> OP54	#Associations of mortality rates with height using son’s height as an instrumental variable D Carslake <i>et al</i> OP58	Are children born after infertility at increased risk of asthma? C Carson <i>et al</i> OP62
12:05–12:25	Uptake of the NHS Health Checks programme in a deprived, culturally diverse setting: cross sectional study ARH Dalton <i>et al</i> OP47	Socio-economic status and mortality from cardiovascular disease among people with Type 2 diabetes in Scotland (2001–2007) J Walker OP51	Are there gender differences in the relative predictive ability of lung function in all-cause mortality? Findings from 13 years of follow up in the Scottish Health Survey-mortality linked datasets (1995 to 2008) L Gray <i>et al</i> OP55	Modelling accelerometer data from 7-year old British children using functional analysis of variance F Sera <i>et al</i> OP59	Children who are born just a few weeks premature are more likely to have poorer school performance than those born at full term MA Quigley <i>et al</i> OP63
12:30–12:50	Influence of the daily consumption of vegetables and fruits on arterial dysfunction in patients with rheumatoid arthritis: a cross-sectional study employing pulse wave analysis MA Crilly <i>et al</i> OP48	Socio-economic position over the life course and all-cause, circulatory diseases, and neoplasms mortality in adulthood and old age: results from a Swedish birth cohort B De Stavola <i>et al</i> OP52	Failing to meet expectations: the meaning of Intimate Partner Violence for Pakistanis PA Ali <i>et al</i> OP56	Who wears an accelerometer? Correlates of adherence to wearing an accelerometry motion sensor: the 2008 Health Survey for England JS Mindell <i>et al</i> OP60	Traveller infant mortality is persistently higher than the general population in the All Ireland Traveller Birth Cohort study NA Hamid <i>et al</i> OP64
12:55–13:15	Ethnic differences in carotid intima media thickness and carotid-femoral pulse wave velocity are present in UK children PH Whincup <i>et al</i> OP49	#The effect of socioeconomic status on mortality in the critically ill: a national data linkage study NI Lone <i>et al</i> OP53	Inequalities in eating behaviour of 11– 15 year old boys and girls in Scotland, 2002–2010 KA Levin OP57	Validation of the Phenotype of Frailty measurement in the Whitehall II study K Bouillon <i>et al</i> OP61	Birth size differences between white British and Pakistani origin infants by generation: results from the Born in Bradford cohort study DA Lawlor <i>et al</i> OP65
13:15–14:00	Packed or sit down lunch (Rootes Building)				
Workshops	Room R0.12	Room R0.14	Room R1.13		
14:00–17:00	Mental wellbeing	Aspirin in perspective	ECR showcase and networking		
Outings					
14:00–17:00	Compton Verney	Warwick Castle	Kenilworth Castle	Kenilworth walk	Warwick Campus sculpture walk
	Explore Coventry				
18:30	Coach travel to Dinner (Coaches depart from Ramphal Building)				
19:00–22:00	Conference Dinner				
22:00–23:00	Ceilidh (Assembly Rooms of the Pump Room, Leamington Spa)				
	Coaches depart for Warwick campus 22:30–23:30				

Timetable

Friday 16 September 2011

Parallel Session D	R0.21 Birth cohort and lifecourse	R0.12 Social determinants and child health	R0.14 Ageing and older people	R1.13 International health	R1.15 Physical activity and environment
09:00–09:20	#Clinical problems in a post war British cohort reaching retirement: evidence from the first British Birth Cohort Study MB Pierce <i>et al</i> OP66	Born into adversity; the intergenerational transmission of psychological morbidity in second generation Irish children living in Britain J Das-Munshi <i>et al</i> OP70	Does the use of psychotropic medications increase on entering a care home? A prospective pharmacoepidemiological study A Maguire <i>et al</i> OP74	The geography of HIV/AIDS infection in Botswana NB Kandala <i>et al</i> OP78	Choice preference and physical activity behaviour WG Hutchinson <i>et al</i> OP82
09:25–09:45	Children and parents with limiting long-term illness and disability (LLTI/D) in the UK: to what extent does parental LLTI/D precede or follow parenting a child with LLTI/D C Blackburn <i>et al</i> OP67	The relationship between subjective wellbeing, low income and substance use amongst schoolchildren in the north west of England: a cross sectional study S Farmer <i>et al</i> OP71	The long and short term effects of alcohol consumption on cognitive decline D Cadar <i>et al</i> OP75	The effect of the HIV epidemic and other factors on mortality in older people in rural South Africa M Thorogood <i>et al</i> OP79	Determinants of physical activity in deprived communities in London: examining the effects of individual and neighbourhood characteristics P Watts <i>et al</i> OP83
09:50–10:10	Prospective sex-specific trans-generational association between cardiovascular risk factors of maternal and paternal grandparents and their grandchildren's birth weights in the Lifeways Cross Generation Cohort Study A Shrivastava <i>et al</i> OP68	#Exploring the association between childhood limiting long-term illness/disability and social disadvantage: does social disadvantage precede or follow the onset of childhood limiting long-term illness/disability? N Spencer <i>et al</i> OP72	Physical activity and the transition to retirement: a mixed-method systematic review I Barnett <i>et al</i> OP76	Message from the healthiest country: from narrowing to expanding gap trend of inequalities in self-rated health in Japan, 1986–2007 A Hiyoshi <i>et al</i> OP80	Can the draw of professional football clubs help promote weight loss in overweight and obese men? A feasibility study of the Football Fans in Training programme delivered through the Scottish Premier League CM Gray <i>et al</i> OP84
10:15–10:35	Associations between birth weight and body composition in later life: preliminary findings from a British birth cohort study D Bann <i>et al</i> OP69	The secondary-school 'market' and young people's health: qualitative case-study research in seven English secondary-schools A Fletcher <i>et al</i> OP73	#Diet in childhood and adulthood and physical performance in old age: findings from the Boyd Orr and Caerphilly cohorts K Birnie <i>et al</i> OP77	Treatment gap in depression J Twynam-Perkins <i>et al</i> OP81	#Does participating in physical activity in outdoor natural environments have a greater effect on physical and mental wellbeing than physical activity indoors? A systematic review J Thompson <i>et al</i> OP85
11:00–11:40	Refreshments and exhibition / poster viewing (Ramphal Building)				
Plenary	R0.21				
11:05–11:30	#The Warwick-Edinburgh Mental Well-being Scale (WEMWBS): a valid and reliable tool for measuring mental well-being in diverse populations and projects. SL Stewart-Brown <i>et al</i> PL1				
11:30–11:55	#Gender, the State, and a lifetime of experience: understanding mental health dynamics among older adults. LM Corna PL2				
11:55–12:20	#Time for bed? The relationship between bedtimes and socioemotional and cognitive development in 7 year old children: findings from the UK Millennium Cohort Study. YJ Kelly <i>et al</i> PL3				
12:20–13:05	Pemberton Lecture (Ramphal Lecture Theatre) Professor Debbie Lawlor: Developmental overnutrition – an old hypothesis with new importance?				
13:05–13:20	Awards and closing remarks				
13:30	Packed lunch should be collected from Rootes building				

#High Scoring abstract
