

Contents

Editorial

- 561 Editorial changes at JECH *J R Dunn, M Bobak*

Speakers' corner

- 562 Painting the picture *A King*

Feature section: interventions

Essays

- 564 Good intentions and received wisdom are not good enough: the need for controlled trials in public health
S Macintyre
- 568 Can we reduce health inequalities? An analysis of the English strategy (1997–2010) *J P Mackenbach*

Theory and methods

- 576 Alternatives to randomisation in the evaluation of public-health interventions: statistical analysis and causal inference *S Cousens, J Hargreaves, C Bonell, B Armstrong, J Thomas, B R Kirkwood, R Hayes*
- 582 Alternatives to randomisation in the evaluation of public health interventions: design challenges and solutions *C P Bonell, J Hargreaves, S Cousens, D Ross, R Hayes, M Petticrew, B R Kirkwood*

Evidence-based public health policy and practice

- 588 Reduced acute hospitalisation with the healthy housing programme *G Jackson, S Thornley, J Woolston, D Papa, A Bernacchi, T Moore*

Commentaries

- 594 Reflections from the antipodes on the English strategy to reduce health inequalities and Mackenbach's analysis *T Blakely, K Carter*
- 596 Public health evaluation: which designs work, for whom and under what circumstances? *L Moore, G F Moore*

July 2011 Volume 65 Issue 7

- 598 Does housing policy influence health? *T Blakely, M G Baker, P Howden-Chapman*

Research reports

- 600 Heavy drinking in early adulthood and outcomes at mid life *F A Sloan, P R Costanzo, D Belsky, E Holmberg, P S Malone, Y Wang, S Kertesz*
- 606 Socioeconomic status is not associated with type 2 diabetes incidence in an elderly population in Germany: KORA S4/F4 Cohort Study *B Kowall, W Rathmann, K Strassburger, C Meisinger, R Holle, A Mielck*
- 613 A population-based risk algorithm for the development of diabetes: development and validation of the Diabetes Population Risk Tool (DPoRT) *L C Rosella, D G Manuel, C Burchill, T A Stukel, for the PHAT-DM team*
- 621 Mother's affection at 8 months predicts emotional distress in adulthood *J Maselko, L Kubzansky, L Lipsitt, S L Buka*
- 626 Effects of intervention with the SAFE strategy on trachoma across Ethiopia *A A Roba, A Wondimu, D Patel, M Zondervan*
- 632 Socioeconomic differentials in cause-specific mortality among 1.4 million South Korean public servants and their dependents *K Jung-Choi, Y H Khang, H J Cho*
- 639 The effect of re-employment on perceived health *M Schuring, J Mackenbach, T Voorham, A Burdorf*

Short report

- 645 Hospitalisation for surgical procedures is lower among immigrants than among non-immigrant preschool children: results from a region-wide study in Italy *U Fedeli, N Alba, F Zambon, F Avossa, P Spolaore*
