Murphy S M, Edwards R T, Williams N *et al*. An evaluation of the effectiveness and cost effectiveness of the National Exercise Referral Scheme in Wales, UK: a randomised controlled trial of a public health policy initiative. *J Epidemiol Community Health* 2012;**66**:8 745–753. There is an error in the second sentence of the Results section in the abstract. It should read: For those referred for mental health reason alone, or in combination with CHD, there were significantly lower levels of anxiety (–1.56, 95% CI –2.75 to –0.38) and depression (–1.39, 95% CI –2.60 to –0.18), but no effect on physical activity.
