

## NOTICE TO CONTRIBUTORS

THE BRITISH JOURNAL OF PREVENTIVE AND SOCIAL MEDICINE is intended for the publication of original work in the field. Contributions in the English language from workers of any nationality may be considered for publication.

As understood by those who are responsible for this Journal, social medicine is that branch of science which is concerned with: (a) biological needs, interactions, disabilities, and potentialities of human beings living in social aggregates; (b) numerical, structural, and functional changes of human populations in their biological and medical aspects. To a large extent its methods must necessarily be statistical, involving the use of numerical data obtained either from official sources or from special field investigations, and interpreted in the light of established findings of the laboratory and of the clinic. Social medicine takes within its province the study of all environmental agencies, living and non-living, relevant to health and efficiency, also fertility and population genetics, norms and ranges of variation with respect to individual differences, and investigations directed to the assessment of a regimen of positive health.

All papers submitted for publication and all other editorial matters should be addressed to The Editors, BRITISH JOURNAL OF PREVENTIVE AND SOCIAL MEDICINE, c/o British Medical Association, Tavistock Square, London, W.C.1.

Papers are accepted on the understanding that they are subject to editorial revision, and that they are contributed to this Journal only. The Editors cannot undertake correspondence about papers returned as unsuitable on the advice of members of the Editorial Board.

Adequate reference should be made to previous work on the subject of the paper. A summary of observations and conclusions must be given.

Papers sent for publication must be typewritten on one side of the paper only, with double spacing and with a margin of at least  $1\frac{1}{4}$  inches. Illustrations should be used sparingly. Photographs should be printed on glossy paper and should be a little larger than the size desired for reproduction. Drawings and diagrams should be done in black ink on tracing linen, Bristol board, or stout, white paper. Any lettering on these drawings should be lightly inserted in pencil. The setting up of type by the printers will be much facilitated if attention is paid to the proportions of the standard page measurements. The Editors express the hope that contributors will study the conventions of shading and design of charts employed in the Journal with a view to standardizing visual symbols for ready recognition.

References should be arranged alphabetically at the end of the paper according to the Harvard system. If the reference is to a book, the place of publication, the number of the edition, and the page number should be given. In the text the year of publication must follow the author's name, more than one paper in any one year being indicated by a small letter (a, b, c) after the date. The reference should be given as follows: author's name, initials, year of publication (in parentheses), title of periodical (in italics, abbreviated according to *World Medical Periodicals*), volume number (bold type arabic numerals), and first page number (ordinary type arabic numerals); book titles (in roman and inverted commas), followed by publisher, place of publication, etc.:

Engle, E. T., and Shelesnyak, M. C. (1934). *Hum. Biol.*, 6, 431.

Fluhmann, C. F. (1936). *Amer. J. Obstet. Gynec.*, 31, 573.

— (1939). "Menstrual Disorders." W. B. Saunders, Philadelphia.

Gómez, F. D. (1942). *Hoja fisiol.*, 2, 25.

Contributors will receive one proof, but it is assumed that all but verbal corrections will have been made in the original manuscript; an allowance at the rate of ten shillings per sheet of sixteen pages is made for alterations in the proof (printer's errors excepted), and contributors will be responsible for any excess.

Fifty reprints of papers will, if desired, be provided free. A limited number of additional reprints at cost price can be supplied if application is made when returning proofs. An estimate of the cost will be given on application to the Publishing Manager, British Medical Association.

The Journal will be published quarterly.

Papers which have appeared in THE BRITISH JOURNAL OF PREVENTIVE AND SOCIAL MEDICINE remain the property of the Journal, and permission to republish them must be obtained from the Editors.

Applications for advertisement space should be addressed to the Advertisement Manager, British Medical Association, Tavistock Square, London, W.C.1.

## NOTICE TO SUBSCRIBERS

Subscriptions (£3 per annum) are payable to the British Medical Association.

"Now then, just stop those flights of yours into the stratosphere and listen to me" said the Oldest Hand. "The soundest barrier of the lot is Sternocleanse Barrier Cream. Spread that on your hands and even a germ attractor like you won't get Dermatitis."

**STERNOL** Sternocleanse

**BATTERSEA  
COLLEGE OF TECHNOLOGY  
LONDON, S.W.11.**

**(iii) RADIOLOGICAL PHYSICS**

Two postgraduate courses will be held during the Session 1961-62 in October 1961. They are based on the recommendations of the Veale Committee Report on 'Training in Radiological Health and Safety'.

- 1. PRINCIPLES AND PRACTICE OF RADIATION PROTECTION** leading to the Postgraduate Diploma of the College (D.C.T. (Batt.)). The course consists of approximately 120 hours of lectures and 180 hours of laboratory classes. It may be taken on a full-time or part-time basis. The full-time course has been accepted by the Department of Scientific and Industrial Research as suitable for tenure of its Advanced Course Studentships.
- 2. RADIOLOGICAL PROTECTION**, leading to the Certificate of the College. The course consists of approximately 40 hours of lectures and 10 hours of laboratory classes which are held during evenings.

Full details and enrolment forms from the Secretary (Radiological Courses).

# SOCIETY FOR SOCIAL MEDICINE

*Proposed Programme of the 5th Annual Meeting, September 28-30, 1961*

LONDON SCHOOL OF HYGIENE AND TROPICAL MEDICINE

## SYMPOSIUM

### The General Practitioner and Preventive Medicine

<i>Chairman:</i>	Professor W. S. Walton
<i>Introduction:</i>	E. M. Backett
<i>Child Health:</i>	R. M. Acheson
<i>Mental Health:</i>	S. P. W. Chave
<i>Occupational Health:</i>	Lord Taylor

## SCIENTIFIC SESSIONS

### (1) Natality:

- ALISON MACDONALD (*Guy's Hospital, London*): Prematurity, associated defects and early post-natal factors.  
 I. M. LECK (*Birmingham University*): Season of birth in relation to other environmental variables.  
 VICTORIA COFFEY (*Trinity College, Dublin*): Maternal anaemia and congenital defects.

### (2) Physique: Non-Infectious Disease

- GILLIAN FOWLER (*Guy's Hospital, London*: introduced by R. M. ACHESON): Fat in the Rhondda Fach.  
 C. R. LOWE (*Birmingham University*): Arterial pressure, physique and occupation.  
 M. SUSSER (*Manchester University*): Fluctuations in peptic ulcer mortality.  
 J. A. HEADY, J. N. MORRIS, A. KAGAN, and P. A. B. RAFFLE (*London Hospital and London Transport Executive*): Direct physical measurement and size of uniforms in the study of busmen's physique.

### (3) Geographical Epidemiology

- A. M. MCFARLAN (*Bristol University*): Spot maps of infectious diseases: early and late examples relating to cholera, poliomyelitis, hepatitis, measles and malaria.  
 P. J. LAWTHER, R. E. WALLER, and MAUREEN HENDERSON (*St. Bartholomew's Hospital, London*): The effects of weather and air pollution on bronchitic patients.

### (4) Industrial Medicine

- J. BOYD (*London School of Hygiene*): Mortality among luminizers.  
 MURIEL NEWHOUSE (*London School of Hygiene*): Occupational dermatoses in an automobile factory.  
 A. S. FAIRBAIRN (*London School of Hygiene*): Survey of railway accidents.  
 D. D. REID (*London School of Hygiene*): Occupational and social factors in miners' mortality.

**(5) Mental and Behavioural Disorders**

R. W. PARNELL (*Warnford Hospital, Oxford*): Measuring the significance of signs and treatment in psychiatry.

NANCY GOODMAN and J. TIZARD (*Maudsley Hospital, London*): The prevalence of mental defect in the London area with special reference to children.

M. POWER (*London Hospital*), introduced by J. N. MORRIS: A pilot study of juvenile delinquency in East London.

**(6) Informal Discussion on**

Training and Careers in Social Medicine, opened by I. M. RICHARDSON (*Aberdeen University*).

# THE BRITISH MEDICAL ASSOCIATION AND THE PROMOTION OF KNOWLEDGE

**O**NE of the foremost aims of the British Medical Association is the promotion of medical and allied sciences and each year a considerable portion of its income is spent in the attainment of this object through the publication of a wide range of general and specialist journals.

The chief of the publications is the *BRITISH MEDICAL JOURNAL* with a weekly circulation of over 84,000 copies. The Journal serves as a comprehensive record of current developments and is a forum for discussion in every field of medical science and professional organization in this country.

## The List of SPECIALIST JOURNALS includes

### ABSTRACTS OF WORLD MEDICINE

*Published Monthly. Annual Subscription £4. 4. 0.*

### BRITISH JOURNAL OF OPHTHALMOLOGY

*Published Monthly. Annual Subscription £6. 0. 0.*

### OPHTHALMIC LITERATURE

*Published Quarterly. Annual Subscription £4. 4. 0.*

*(Combined Annual Subscription for the two Ophthalmic Journals £9 0. 0.)*

### ARCHIVES OF DISEASE IN CHILDHOOD

*Published Bi-monthly. Annual Subscription £4. 4. 0.*

### BRITISH HEART JOURNAL

*Published Bi-monthly. Annual Subscription £4. 4. 0.*

### BRITISH JOURNAL OF PHARMACOLOGY AND CHEMOTHERAPY

*Published Bi-monthly. Annual Subscription £6. 6. 0.*

### JOURNAL OF CLINICAL PATHOLOGY

*Published Bi-monthly. Annual Subscription £4. 4. 0.*

## QUARTERLY JOURNALS

*Uniform Annual Subscription £3. 0. 0.*

### ANNALS OF THE RHEUMATIC DISEASES

### BRITISH JOURNAL OF INDUSTRIAL MEDICINE
