

JOURNAL OF  
**MENTAL DEFICIENCY RESEARCH**

Volume 18

Part 2

June 1974

CONTENTS

- The Prevalence of Epilepsy among Mongols Related to Age. R. M. VEALL  
 Cutis Verticis Gyrata in a Chinese Mental Defective. M. T. TSUANG and S. N. LIN.  
 Serum IgE Concentration in Trisomy 21. VICENTE LÓPEZ.  
 Recurrence Risks in Severe Undiagnosed Mental Deficiency. SARAH BUNDEY and C. CARTER.  
 A search for Aspartylglycosaminuria in Poland. ALICJA GALEWICZ, DANUTA GÓRSKA, MARIA RODO  
 and J. ZAREMBA.  
 Banding Identification of Partial Trisomy 15 and of 8/21 Translocation. DORIS H. WURSTER-HILL  
 and D. HOEFNAGEL.  
 The Hallermann-Streiff Syndrome. N. C. NEVIN, B. G. SCALLY, P. THOMAS and D. C. KERNOHAN.  
 Four Cases of 9p Trisomy Resulting from the Balanced Familial Translocation (9;15) (q13; q11)  
 Clinical Picture and Cytogenetic Findings. J. ZAREMBA, ELZBIETA ZDZIENICKA, IRENA  
 GLOGOWSKA, TERESA ABRAMOWICZ and BARBARA TARACHA.  
 Appendix: Notes on Dermatoglyphic patterns. DANUTA LOESCH.

# **A NEW LOOK AT INFECTIOUS DISEASES**

from the British Medical Journal

Infectious diseases remain as much a medical challenge as ever, and the articles collected in book form under the title *A New Look at Infectious Diseases* cover many aspects of diagnosis and treatment. The widespread use of newer antibiotics and increased risk of spread by travel are all dealt with, as well as the problems of diagnosis produced by present day doctors' unfamiliarity with many diseases, which were formerly so common and widespread

A NEW JOURNAL

# PUBLIC HEALTH REVIEWS

AN INTERNATIONAL QUARTERLY

Published by International Health Publications, Tel Aviv, Israel.

*Public Health Reviews* was established to answer the need of professional readers for a single publication that reviews the wide gamut of subjects within the sphere of public health. It is the only review journal in public health, which is ironically, one of the broadest fields in medicine today. It is specifically designed to present papers that informatively survey and evaluate public health problems of current concern. This practical guide to the most recent advances in the field keeps the reader appraised of new data available from both laboratory and clinical medicine and research.

The extensive reference lists add to the value of the journal by directing the reader to the most suitable sources for additional information. The format and scope of this journal provide an invaluable source of information to the medical profession, including public health workers and administrators. *Public Health Reviews* does not duplicate or compete with any other publication. A brilliant future is forseen for this journal.

Editorial Board

*Ari Kernerman* (Editor)

*Joel Wittner* (Assistant Editor)

*Naomi Kenneth* (Technical Editor)

*Mair Assa*, M.D.

*Walter R. Cuskey*, Ph.D.

*Ernest Frankl*, M.D., M.P.H.

*H. Goldstein*, M.D.

*Levic Jessel*, M.D.

*Barry G. King*, M.D.

# why deny them selective fluoridation?

Milk when FLUORIDISED and distributed to children is an effective prophylactic measure against caries • Voluntarily used this fail/safe method provides known dosages daily • Maximum protection is obtained as young teeth develop • This technique does not infringe the personal liberty of adults and removes any fears of possible fluoride side-effects • Dentamilk for children is a SELECTIVE, economic and proven way to lessen a world-wide disease • It deserves serious attention from all who specialize or engage in preventive dentistry.
