The Theory and Practice of Public Health

Edited by W. Hobson

This book provides basic information for all engaged in public health work in any part of the world and places special emphasis on epidemiology, the community aspects of medicine, and on the managerial sciences in public health. This new edition includes new chapters on The Control of Malaria, The Public Health Aspects of Certain Skin Diseases, The Venereal Diseases, The Epidemiology and Control of Rabies, Public Health Ophthalmology; Dependence as a Public Health Problem, Family Planning and Health, Socio-Medical Problems of Nomad Peoples, The Control of Infection in Hospital, and Evaluation of Screening Procedures. Fourth edition *Oxford Medical Publications illustrated* £16

Oxford University Press

LECTURER IN EPIDEMIOLOGY

Hebrew University of Jerusalem seeks candidates for two, three-year, full-time positions currently available. Candidates should be medically qualified and have an interest, and preferably experience, in epidemiology. Preference will be given to those with clinical experience. Duties comprise teaching of medical and MPH students and research in aspects of public health nutrition (one post) or perinatal studies (one post).

Apply to Head, Department of Medical Ecology, or Head, Department of Public Health Nutrition, Hebrew University—Hadassah Medical School, P.O.N. 1172, Jerusalem, Israel.
