

International Journal of Epidemiology

Editor: W.E. Waters,
Southampton General Hospital
Southampton, UK

The **International Journal of Epidemiology** encourages communication amongst those engaged in the research, teaching and application of epidemiology throughout the world. It is concerned with the epidemiology of both infectious and non-infectious diseases, with research into health services and medical care, and with new methods, statistical or otherwise, for the analysis of data used by those who practise social and preventive medicine.

The **International Journal of Epidemiology** is published in four issues every year by Oxford University Press and is the official journal of the *International Epidemiological Association*.

Recent and forthcoming articles include:

Changes in fertility and the acceptability of pregnancies in Northern Finland during the last 20 years **P. Rantakallio and A. Myhrman**

Birthweight patterns in Harare, Zimbabwe **N. Dole, K. Gleiter, D.A. Savitz, T.H.K. Chimbira, M.T. Mbizvo**

The comparison of trends in perinatal mortality in small areas **J.B. Levin, A. Macfarlane, S. Bennett**

Silica exposure and lung cancer in ceramic workers: A case-control study **J.M.M. Meijers, G.M.H. Swaen, A. Volovics, J.J.M. Slangen, K. van Vliet**

Prenatal exposure to tobacco effects on physical growth at age three **N.L. Fox, M. Sexton, J.R. Hebel**
