International Journal of Epidemiology

Editor: P.O.D. Pharoah
University of Liverpool, UK

The **International Journal of Epidemiology** encourages communication amongst those engaged in the research, teaching and application of epidemiology throughout the world. It is concerned with the epidemiology of both infectious and non-infectious diseases, with research into health services and medical care, and with new methods, statistical or otherwise, for the analysis of data used by those who practise social and preventive medicine.

The **International Journal of Epidemiology** is now published in six issues every year by Oxford University Press and is the official journal of the *International Epidemiological Association*.

**Subscription rates for 1992
(Volume 21)**

UK and Europe £125.00
Rest of World US\$250.00

Recent papers include:

Hiroshi Nakajima

Epidemiology and the Future of World Health by the Director General, WHO

EURODEM Prevalence Research Group The Prevalence of Dementia in Europe: A Collaborative Study of 1980-1990 Findings
