**Spain: "Revisiones en Salud Pública" call for papers.** The editors of *Revisiones en Salud Pública* invite all professionals with an interest in public health affairs to submit either directly to them manuscripts in Spanish or to write to them—in English or Spanish—with a brief outline of the contents and scope of a potential contribution. *Revisiones* welcomes reviews, short essays, and commentaries on any aspect related to the public's health, including health promotion and disease prevention, health services research, epidemiology, sociology, psychology, and health policy. Authors of papers accepted for publication receive about \$200 or \$300, depending on the characteristics (for example, length) of the manuscript. All manuscripts are peer reviewed. They should not have been published or submitted for publication else-

where. *Revisiones* is seeking innovative, rigorous, and critical articles that discuss experiences and ideas relevant to theory and to practice.

*Revisiones* is jointly published by Editorial Masson/Salvat from Barcelona and The Institut Valencià d'Estudis en Salut Pública (IVESP). The first volume (243 pages) appeared on December, 1989; volume 2 (231 pages) on September, 1991; and volume 3 (240 pages) on April, 1993.

Instructions for authors can be found at the end of each volume or are available from the editors: Miquel Porta MD MPH, Departament d'Epidemiologia, Institut Municipal d'Investigació Mèdica, Universitat Autònoma de Barcelona, carrer del Doctor Aiguader 80, E-08003 Barcelona, Spain. ### Dictionary of Epidemiology

Sir,

Well over 100 epidemiologists all over the world have contributed suggestions and definitions to the *Dictionary of Epidemiology*. Since the second edition was published in 1988, users have drawn attention to some errors and omissions, and the subject continues to spawn new terms. I am therefore preparing a revision. I would welcome comments and suggestions for this. They may be sent to me at the address below.
