

JOURNAL OF

EPIDEMIOLOGY

*& Community Health***In this issue**

- 241 **Securing the evidence base for public health and acting on it** *J R Ashton, CBE, C Alvarez-Dardet*

Aphorism of the month

- 241 **Hospital beds** *J R Ashton, CBE*

Editorials

- 242 **Violence against women: a global public health issue!** *G Krantz*
- 244 **Psychosocial risk factors at the workplace: is there enough evidence to establish reference values?** *F G Benavides, J Benach, C Muntaner*

Public health policy and practice

- 246 **Can lay-led walking programmes increase physical activity in middle aged adults? A randomised controlled trial** *S E Lamb, H P Bartlett, A Ashley, W Bird*

Research reports

- 253 **Health inequalities by education and age in four Nordic countries, 1986 and 1994** *K Silventoinen, E Lahelma*
- 259 **Liberal fortification of foods: the risks. A study relating to Finland** *A Suojanen, S Raulio, M-L Ovaskainen*
- 265 **Sexual assault among North Carolina women: prevalence and health risk factors** *S Cloutier, S L Martin, C Poole*
- 272 **Employee control over working times: associations with subjective health and sickness absences** *L Ala-Mursula, J Vahtera, M Kivimäki, M V Kevin, J Pentti*
- 279 **Higher blood pressure among Inuit migrants in Denmark than among the Inuit in Greenland** *P Bjerregaard, M E Jørgensen, P Lumholt, L Mosgaard, K Borch-Johnsen and the Greenland Population Study*
- 285 **Trends in head injury mortality among 0-14 year olds in Scotland (1986-95)** *L M Williamson, A Morrison, D H Stone*
- 289 **Use of acute hospital beds does not increase as the population ages: results from a seven year cohort study in Germany** *R Busse, C Krauth, F W Schwartz*

Theory and methods

- 294 **Psychosocial work environment and myocardial infarction: improving risk estimation by combining two complementary job stress models in the SHEEP Study** *R Peter, J Siegrist, J Hallqvist, C Reuterwall, T Theorell, and the SHEEP Study Group*
- 301 **Comparing hospital discharge records with death certificates: Can the differences be explained?** *L A Johansson, R Westerling*
- 309 **A cancer survival model that takes sociodemographic variations in "normal" mortality into account: comparison with other models** *Ø Kravdal*

Letters to the editor

- 319 **Milk and coronary heart disease mortality** *J J Segall, A R Ness, G Davey Smith, C Hart*
