

JOURNAL OF EPIDEMIOLOGY & Community Health

In this issue

233 Some by fire and some by their own hand *J R Ashton, C Alvarez-Dardet*

The JECH gallery

234 "No ball games": children's views of their urban environments *V Morrow*

Speaker's corner

235 The caterpillar and the butterfly: public health in Spain *A Segura*

Aphorism of the month

235 Columbus on the need for strategy *J R Ashton*

Editorial

236 Public health in the new European Union research programme *M McCarthy*

Public health policy and practice

238 Media coverage as a risk factor in suicide *S Stack*

241 Who decides when to start preventive treatment? A questionnaire survey to compare the views of different population subgroups *D K Lewis, S Barton*

243 Substantial potential for reductions in coronary heart disease mortality in the UK through changes in risk factor levels *J A Critchley, S Capewell*

Theory and methods

248 Measuring the habitat as an indicator of socioeconomic position: methodology and its association with hypertension *B Galobardes, A Morabia*

254 Defining equity in health *P Braveman, S Gruskin*

259 Chinese SF-36 Health Survey: translation, cultural adaptation, validation, and normalisation *L Li, H M Wang, Y Shen*

Research reports

264 Landmine related injuries in children of Bosnia and Herzegovina 1991–2000: comparisons with adults *S Kinra, M E Black*

266 Educational level as a contextual and proximate determinant of all cause mortality in Danish adults *M Osler, E Prescott*

270 Residential area deprivation predicts smoking habit independently of individual educational level and occupational social class. A cross sectional study in the Norfolk cohort of the European Investigation into Cancer (EPIC-Norfolk) *S Shohaimi, R Luben, N Wareham, N Day, S Bingham, A Welch, S Oakes, K-T Khaw*

277 The historical specificity of early life car ownership as an indicator of socioeconomic position *A Ellaway, S Macintyre, L McKay*

279 No association of income inequality with adult mortality within New Zealand: a multi-level study of 1.4 million 25–64 year olds *T Blakely, J Atkinson, D O'Dea*

285 Do psychosocial work factors and social relations exert independent effects on sickness absence? A six year prospective study of the GAZEL cohort *M Melchior, I Niedhammer, L F Berkman, M Goldberg*

294 Health status of users of hormone replacement therapy by hysterectomy status in Western Australia *L J Lambert, J A Y Straton, M W Knuiman, H C Bartholomew*

301 Inequalities in survival from colorectal cancer: a comparison of the impact of deprivation, treatment, and host factors on observed and cause specific survival *H Wrigley, P Roderick, S George, J Smith, M Mullee, J Goddard*

310 Retrospective cohort study examining incidence of HIV and hepatitis C infection among injecting drug users in Dublin *B P Smyth, J J O'Connor, J Barry, E Keenan*

Letters

312 Health benefits of green spaces not confirmed *J Adams, M White; T Takano, K Nakamura, M Watanabe*

312 A superficial glance at child health *A G Gordon*
