Abbreviations: AA, Associate of Arts; AANHPI, Asian American, Native Hawaiian, and Pacific Islander; AS, Associate of Science; CHIS, California Health Interview Survey; CI, confidence interval; HMO, health maintenance organization.

* Distribution (except age at interview) for controls were adjusted to the age distribution of the general ethnic-specific California population residing in study catchment area.
Table values are column percentages based on non-missing values only; percentages may not sum to 100% due to rounding.

Other AANHPI estimates were calculated including only respondents who took the CHIS in English.

Statistically unstable; has not met criteria for minimum number of respondents needed.

Responses include unemployed, retired, on disability, homemaker, student, and volunteer.

Limited to participants who spoke a non-English language at home (controls, n=267).

Responses include single-service plan (e.g. dental, vision, prescriptions).

Responses include acupuncturist, websites, and self.

Weight (kg)/height (m)^2.

CHIS respondents limited to females ≥30 years of age.
