

Figure S1: Percentage of ECD assessment tasks solved at baseline by children in ECD- or IHIP-group separated by the seven development domains.

The scale on the left indicates the proportion of children. The legend on the right indicates using colour-coding the percentage of tasks fulfilled by children in the ECD- or IHIP-group and separated by the seven development domains. BH: basic habits, PS: personal and social development, GM: gross motor skills, FM: fine motor skills, RO: relationship between objects, ST: space and time, CO: communication, ECD: early child development, IHIP: integrated home-based intervention package.
